# Bio-Soil Connect

Bio-Soil Connect is a balanced mixture of soluble humates and seaweed extract combined with beneficial bacteria and plant vitamins which act as a biological food substrate for use with all types of plants growing in all types of soils. It works to "connect" biological systems with chemical and physiological processes within the soil.

### DO NOT STORE IN DIRECT SUNLIGHT - KEEP OUT OF REACH OF CHILDREN

We suggest pre-mixing the powder with water in a separate container before adding it to the final spray tank to ensure maximum dissolution, especially in cold water.

### RECOMMENDED DILUTION & APPLICATION RATES

#### Turf (treats 1 acre)

Bio-Soil Connect	Volume of Water	Frequency
2 pounds	100 gallons	2-3 times per season
3 pounds	150 gallons	once per season

#### Trees

Bio-Soil Connect	Volume of Water	Frequency
2 pounds	100 gallons	(1) gal/hole - (2) holes/DBH once per season
3 pounds	150 gallons	(1) gal/hole - (4) holes/DBH once per season

#### Shrubs
